2. 4C = C,M,Y,K or Full Colour (Not provide white colour printing).
3. 1C = C/M/K either 1 colour with toning from 10% to 100%.

Remark Sticker Usage:

- Colour Protective Finishing (Gloss / Matte / Soft Touch Lamination, UV Varnish, Gloss Water-based Varnish) are added in order to protect stickers from scratches, surface dirt and extent sticker's shelf life (except Printing Paper stickers).
- Sticker that want to apply on curve surface (eg: bottle) is advice not to apply Gloss / Matte / Soft Touch lamination as it will affect the glue adhesion at edge.
- Sticker used only on flat, dry and smooth surface.
- Unsuitable for outdoor use.
- Best durability when used in room temperature.
- Non removable.
- Mirror Kote sticker may apply Gloss, Matte or Soft Touch Lamination for water-resistance surface.
- Synthetic Paper is applicable for low temperature environment (Fridge).

Precautions:

- Remove all oil, moisture and dirt from substrate surface before applying.
- Please apply pressure fairly (or with a roller) to sticker surface when applying to make sure the glue is adhesive to substrate surface.
- Please allow the sticker to sit at least half an hour after adhered on substrate surface.
- Please store the sticker at room temperature and not exposed to sunlight directly before or after apply the sticker.
- Please peel off liner instead of the facestock, wrongly peel method will result in causing damage to the facestock of the sticker.
